Smarter tools for every harvest job

Harvest doesn't wait. Neither should your information.

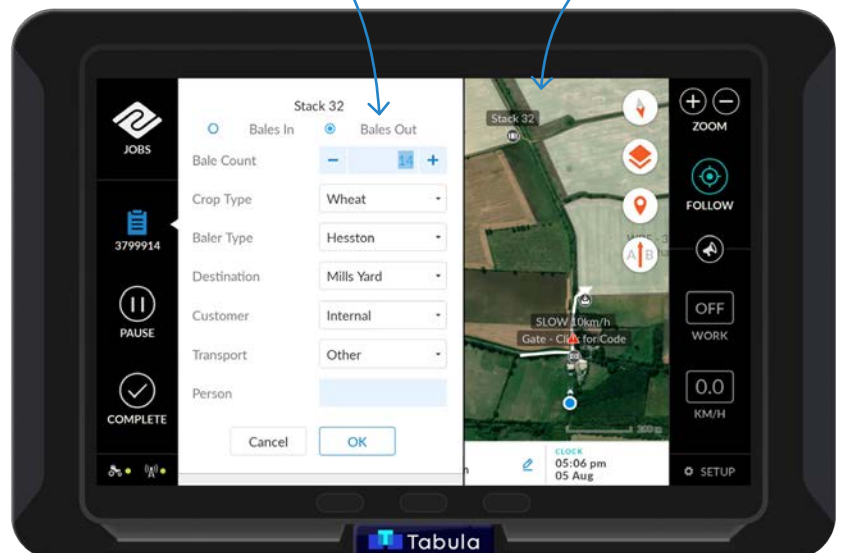

Every minute counts when you're in the field and up against the clock or the weather. Tabula gives you whole-of-business visibility in one flexible, easy-to-use platform - built for busy harvest contractors.

From mowing to silage, plan and manage every part of the job cycle in a single system. See jobs, operators and progress live as the work unfolds. With reliable hardware, smart software, and highly accurate GPS, Tabula helps you save time, reduce costs and work with confidence.

Log tasks and observations

Record bales with a few clicks

View hazards and site information

Smarter tools. More connected crews.

- Equip your team with the easy-to-use Field Support App
- Assign new tasks as they occur, e.g. rebales
- Track task completion and timelines
- Log observations in the field, e.g. broken bale

Accurate inventory. Total peace of mind.

- Track every bale, stack and tonne by operator, bale type and location
- Record inventory counts on the spot - no double-handling or rework
- Get instant, accurate data at your fingertips for inventory and audit trail
- Use in-field counts for fast, error-free invoicing
- Get it right the first time to reduce labour costs and prevent mistakes

One platform. Total visibility.

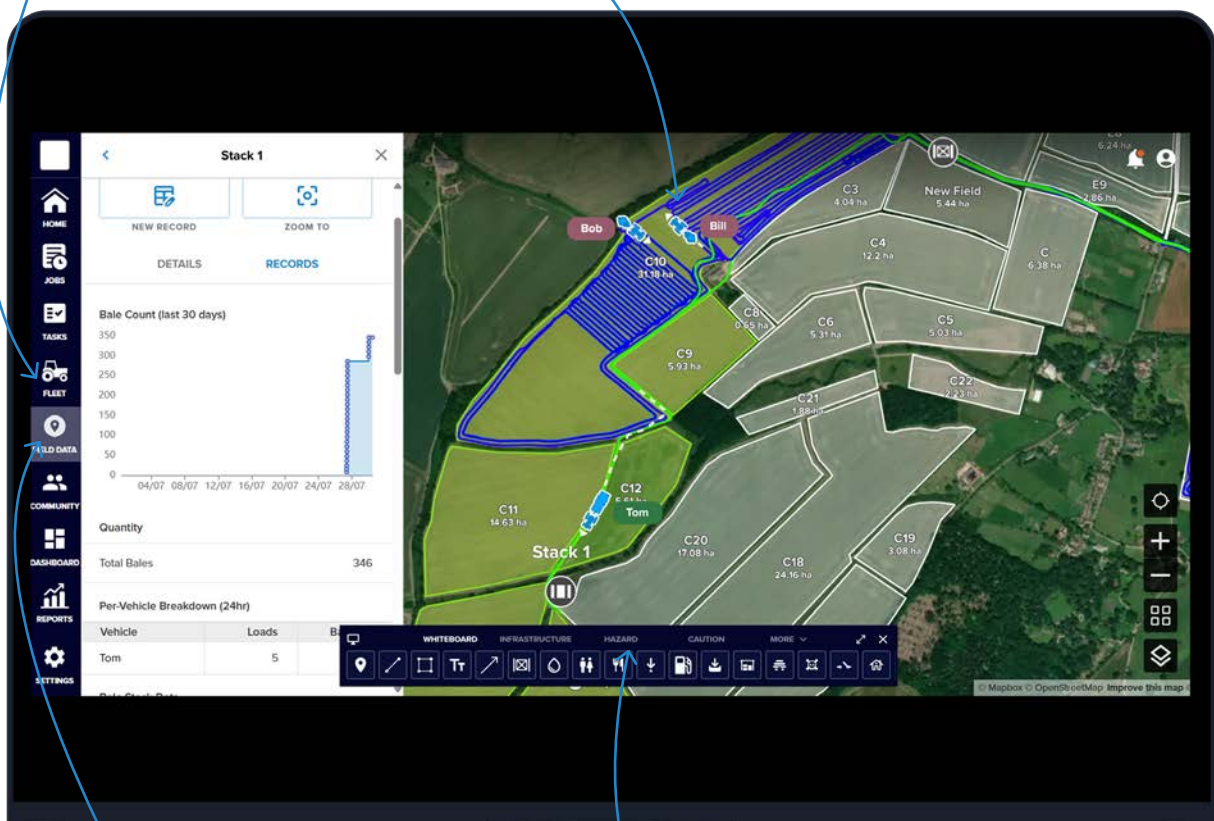

- See every baler and support vehicle in real time
- Track staff and fleet activity across all locations
- Send tasks to multiple operators at the tap of a button
- Monitor driver speed to support safe, efficient operations
- Adapt plans on the fly as the day unfolds

Simplified safety. Reduced risk.

- Highlight and manage hazards across every job and location
- Mark no-go zones, hostile properties or post speed warnings
- Note gate security codes for access
- Drop directional markers to guide drivers to the right location
- Send instant SOS Assist alerts in an emergency (e.g. baler fire)
- Access driver and vehicle history for incident reporting

Monitor fleet and individual vehicles

See work in progress in real-time

View stacks and bales

Mark hazards, entry to site, gate codes and more

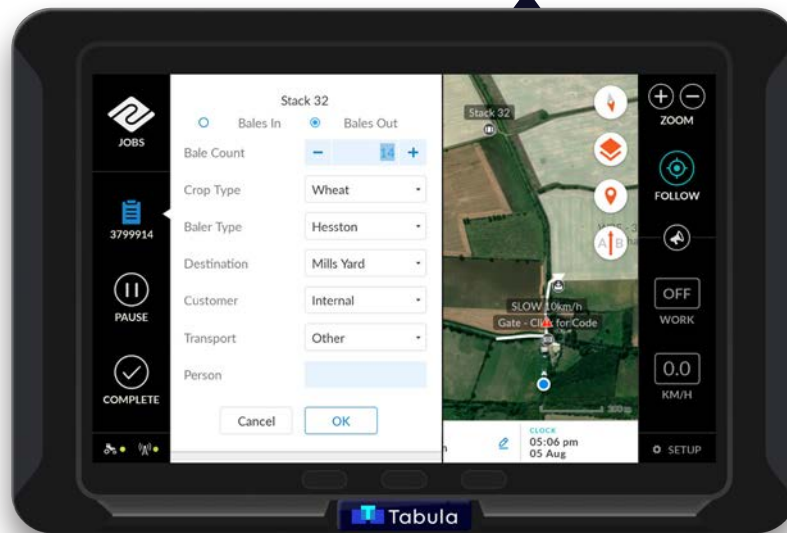

Your Tabula toolkit

Smart software, a durable tablet, and an easy-to-use app - everything you and your team needs to stay on task and on track, from the field to the office.
